- *Definition of Done*
  - This function passes testing per acceptance criteria
  - The admin can change the status of order.
- *Prototype*
  - *List all order*

The screenshot shows a web browser window with the URL `localhost/shop/admin/order/index`. The page is titled "LALA ADMIN" and "Lala Dashboard". On the left is a sidebar with navigation links: Dashboard, User Profile, Table List, Maps, and Notifications. The main content area displays a table of orders. Above the table, there is a "Sort by" dropdown menu set to "TIME INCREASE". The table has columns for #, User, User Name, User Email, User Phone, User Address, Status, Total, Date, Delete, and Update. There are three rows of order data.

#	User	User Name	User Email	User Phone	User Address	Status	Total	Date	Delete	Update
